

# Mobile Number Login

## Overview

Mobile Number Login Extension allows the customer to register the mobile number while creating the account and also allows them to login to their account using the registered mobile number.

This extension has the following features,

- Customer can register their mobile number during account creation.
- Customer can edit their phone number in customer dashboard.
- During mobile number change, customer receives the email notification.
- Admin can add or change the mobile number on behalf of the customer.
- Existing mobile number cannot be registered again.

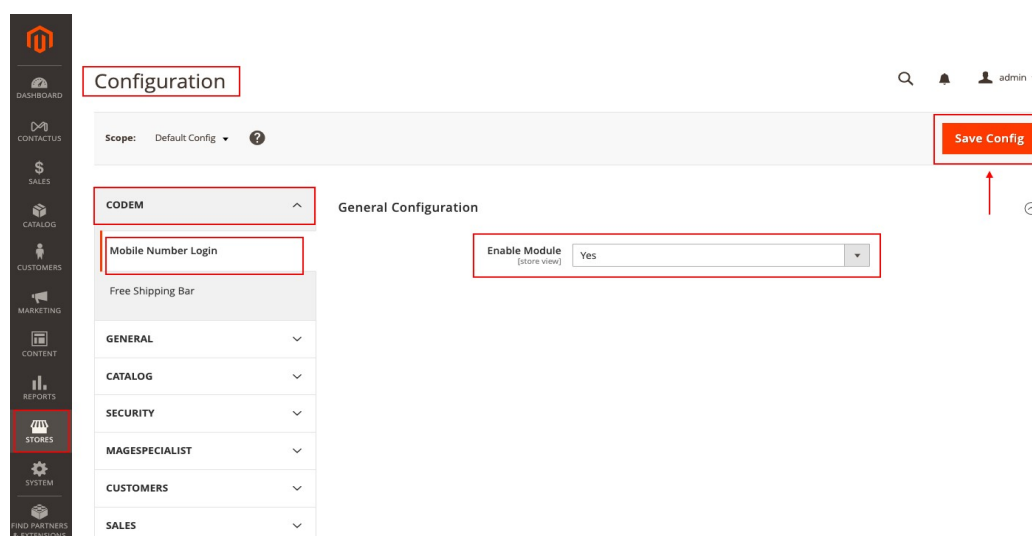

## Extension Installation

To install the extension, follow the listed steps

- Download the MobileLogin code from the git hub link (<https://github.com/JinnahCodem/Module-Tasks.git>) and upload the extension to the root of your Magento 2 directory under `app > code > Codem`.
- Login to your SSH and run **`bin/magento setup:upgrade`** command.
- Enable the module using **`bin/magento module:enable Codem_MobileLogin`** command.
- Flush the Cache using **`bin/magento cache:flush`** command.

## General Configuration

- To enable the module, click on **Stores > Configuration > Codem > Mobile Number Login > General Configuration**, then select **Yes** from **Enable Module** field and click **Save Config** button.

## Mobile Number Login Frontend

### Create Account Page

- Register the mobile number in the Additional information field **Mobile Number** input box. Mobile number should be unique and not be existing one.

- The Customer can enter the Registered Email or Registered Password in **Email / Mobile Number** input box and enter the appropriate password and click the **Sign In** Button.

## Account DashBoard

- After registration, you will be redirected to **My Account** dashboard page. You can view the registered mobile number in the Account Dashboard.

- To edit the Email / Mobile Number or Password. Click the **Edit** link from contact Information field or **Account Information** option.

- Click **check boxes** as per your requirement and **change the credentials** on the right hand side and click **Save** button.
- After changing the credentials, the customer will be notified via mail of the change request.

- Now, UI grid is visible on the screen and we can locate the Mobile Number column in the grid.

## Add Member Page

- Admin can also add the phone number for the new user by clicking **Add New Customer** button on the Customer grid page.
