

# Shipping Method

## Overview

Shipping Method Module allows the store owner to configure the countries specific shipping method handling fee.

## Extension Installation

To install the extension, follow the listed steps

- Download the Codemshipping code (<https://github.com/JinnahCodem/Module-Tasks.git>) from the git hub link and upload the extension to the root of your Magento 2 directory under **app > code > Codem**.
- Login to your SSH and run **bin/magento setup:upgrade** command.
- Enable the module using **bin/magento module:enable Codem\_Codemshipping** command.
- Flush the Cache using **bin/magento cache:flush** command.

## General Configuration

- To enable the extension, click **Stores > Configuration > Sales > Delivery Methods**, then select **Yes** from **Enable Module** field, set the **Title**, **Method Name**, **Price** and select **countries** where you need shipping method and click **Save Config** button.

The screenshot displays the Magento 2 Configuration interface for the 'Codem Flat Rate' shipping method. The left sidebar shows the navigation menu with 'STORES' highlighted (1). The main content area is titled 'Configuration' (2) and contains a 'Codem Flat Rate' section (5). Within this section, the 'Enable/Disable extension' dropdown is set to 'Yes' (6). Other fields include 'Title' (Codem Rate), 'Method Name' (Flat), 'Price' (20.00), and 'Displayed Error Message' (This shipping method is not available right now.). The 'Ship to Specific Countries' list is populated with various countries. A 'Save Config' button is located at the top right (7). Red annotations and numbers 1 through 7 highlight specific steps: 1 points to the 'STORES' menu item, 2 to the 'Configuration' breadcrumb, 3 to the 'SALES' menu item, 4 to the 'Delivery Methods' menu item, 5 to the 'Codem Flat Rate' section title, 6 to the 'Enable Module' dropdown, and 7 to the 'Save Config' button. Red arrows also point from descriptive text to the corresponding fields: 'Set custom title' to the Title field, 'Set custom method name' to the Method Name field, 'Enter shipping price to be charged' to the Price field, 'Enter error message to be displayed' to the Displayed Error Message field, and 'Select countries for shipping charge' to the Ship to Specific Countries list.

## Shipping Method Frontend

- On the checkout page, if the **shipping country matches with the configured country**, shipping handling fee will be displayed under Shipping Method.
